

NEW SOUTH WALES

MONTHLY SUMMARY
OF
BUSINESS STATISTICS

No. 221. October, 1949

Issued by S. R. Carver, Government Statistician

SYDNEY:
ALFRED HENRY PETTIFER, GOVERNMENT PRINTER
1949

[Price, 3d.]

1. EMPLOYMENT IN NEW SOUTH WALES.

WAGE AND SALARY EARNERS IN CIVIL EMPLOYMENT.

(1) The estimates shown below are based on the Census of 1933 and subsequent quasi-censuses (e.g. Civilian Register, 1943 and Occupation Survey, 1945), and returns supplied monthly by governmental authorities and since July, 1941, by employers for purposes of Commonwealth Pay-roll Tax. (2) The number of employees recorded on Pay-roll Tax returns relates to those whose names appeared on the last pay-roll of the month irrespective of whether they were actually working at the end of the month. (3) Wage earners in rural industry, female domestics in private households, members of defence forces at home or abroad, and Government "relief" workers are not included.

Month.	Total Employees. (Excluding Rural Workers and Household Domestics.)			Employees in Main Industrial Groups †.

‡ Four-weekly periods changed. § Includes production from "Open Cuts" by the Army, 101,000 tons.

16. MONTHLY PRODUCTION STATISTICS—NEW SOUTH WALES.

The following statistics of production are obtained principally by means of returns collected monthly from producers by the Government Statistician of N.S.W. in conjunction with the Commonwealth Statistician. The figures for 1948-49 are subject to revision on receipt of annual returns. Production from June to August, 1949, was affected by an industrial dispute in coal mines and power restrictions.

The index may be regarded as an approximate measure of changes in the volume of business transactions settled by cheques provided it is considered in conjunction with changes in price levels. It represents the ratio of each month's clearings to the average for the month concerned during the five years 1926-1930. This average is represented by 100 each month. Seasonal fluctuations have thus been eliminated. Casual fluctuations in monthly index numbers have been smoothed out by taking a three months' moving average, that is, the index shown above for each month is the average of the actual index of that month and the preceding two months. It may be compared vertically or horizontally.

The index is adjusted to eliminate the effects of Treasury Bill and other special transactions on behalf of Governments and the effects of bank amalgamations. No adjustment has been made for normal growth or change of price levels. The amounts of clearings shown are the recorded totals less Treasury Bill transactions only.

27. LIFE ASSURANCE—NEW POLICIES ISSUED (N.S.W.).

The Government Insurance Office of N.S.W. is not included.

29. STOCK EXCHANGE INDEX (SYDNEY).

The following index of the values of the principal Company shares on Sydney Stock Exchange embraces the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales.

The prices of individual shares are unweighted, and each group average is the mean of the average monthly prices per £1 of paid-up capital. The aggregate index is the average of all the shares included in the groups with the addition of 24 miscellaneous shares. There is no base period as the index represents the ratio per cent. of the average prices of ordinary shares to their par values, adjustment being made where capital is written off or bonus shares are issued.
